

KIDS FIRST – Island County

Request Form

Kids First is dedicated to fulfilling the unmet needs of children who are in foster care by building partnerships that link children with educational, recreational and vocational opportunities. Requests for support will be considered for every child/youth who has an open court case (Shelter Care or Dependency) being heard in Island or San Juan County Superior Courts, as well as for children/youth who are placed within Island and San Juan Counties while awaiting the outcomes of dependency proceedings being heard within their counties of origin.

Kids First makes every effort to meet each child’s unmet needs through collaboration with caregivers, social workers, VGAL's, schools, business owners, public and private organizations.

Requests can be submitted by children’s social workers, caregivers and VGAL's/CASA's by completing the form below and submitting to **Kids First** through our website, by email or regular mail. All information remains confidential.

CONFIDENTIAL
